## DR. BRYAN MONSON

Dr Bryan Monson is a member of the Refractive Surgical Alliance Society, an international society of some of the top vision correction surgeons in the world. He specializes in advanced refractive cataract surgery, laser vision correction refractive procedures to correct nearsightedness, farsightedness, astigmatism and presbyopia. The decision to have eye surgery is one of the most important ones an individual will ever make. His approach is to combine top medical experience, world-class technology, ultra-modern surgical techniques and a compassionate expert staff to achieve exceptional vision results for his patients.

Dr. Monson was awarded a top research award for his work in intraocular lenses by The American Society of Cataract and Refractive Surgery. He was also named one of the Top-10 Doctor Metro Area and Top-10 Doctor for the State of Arizona. He has also received the Compassion Doctor Recognition and Patients' Choice Award from Vitals. He is a leader and innovator in the field of refractive surgery.

Dr. Monson earned his medical doctorate, graduating with honors, and completed his internship at Tufts Medical Center. He continued his training with a three-year ophthalmology residency at The New England Eye Center in Boston, Massachusetts where he was named chief resident. Dr. Monson also completed a fellowship at the John A Moran Eye Center in Salt Lake City. He earned his Masters of Business Administration in Healthcare Management and National Healthcare Policy at Northeastern University and Brandeis University respectively, in Boston, Massachusetts.

Dr. Monson is active in ophthalmic research and has played significant investigator roles during numerous clinical trials, and in advancing new surgical techniques. His research and opinions have been published in many professional medical journals. In addition, Dr. Monson has been a patient himself, having undergone laser vision correction surgery in 1998.

Dr. Monson is recognized as one of America's top ophthalmologists and is active in a number of professional organizations including the American Academy of Ophthalmology, the International Society of Refractive Surgery, The American Society of Cataract and Refractive Surgery and the Refractive Surgical Alliance Society.
